 **PHOENIX**  
NATURAL GAS

**This brochure has been designed to introduce you to the wide selection of local natural gas appliance retailers. These retailers' stock natural gas cookers, real flame fires, and tumble dryers to make your home cosier and more efficient.**

A natural gas fire offers the warmest of welcomes and a cosy focal point for any home. Combined with high heat efficiencies and competitive running costs, real flame natural gas fires offer affordable warmth and visual comfort whilst also being convenient. Safe, and easy to operate.

Natural gas cookers offer speed, efficiency, and controllability. Cooking with natural gas is less expensive than electricity and with a full spectrum of gas cookers to choose from there's a style to suit every household from professional chef designs to country kitchen looks.

No need to hope for a good 'drying day' with a natural gas tumble dryer which will save you time, add convenience, and protect your fabrics. Most importantly, natural gas tumble dryers are significantly cheaper to run than electric alternatives.

**Consider changing your old appliances and upgrade to natural gas to enjoy efficiency, convenience, controllability, and cost saving. All of the retailers in this brochure can advise you on the best appliances to suit your needs.**
